

# BENEFITS FOR THE NATION'S HEROES

The homeownership rate among veterans far outpaces that of civilians, according to Veterans United Home Loans. However, active duty military personnel often face challenges, due in large part to deployments. But there is good news for the nation's heroes.

Veterans and active-duty service members are usually eligible for a VA home loan if they served in the following capacity:

90 consecutive days on active duty during wartime

181 consecutive days on active duty during peacetime

6+ years in the National Guard or Reserves

Veterans Affairs also offers foreclosure avoidance protection assistance for homeowners.

~500,000

veterans and servicemembers have avoided foreclosure since 2008 as a result of these efforts
